WARRANTIES Assigned to AIRCRAFT XYZ SN XXXXX

Section 1: Title. QTA warrants that it has good and marketable and free title to the QTA Inlet Upgrade Program Supplemental Type Certificates (STC's) against the contrary claims and demands of all persons.

- Said STC is specifically FAA ST#####AT for XYZ aircraft.

Section 2: Warranty. QTA warrants the following for Inlet Serial Numbers : _____

2.1 That for the service life of the aircraft to which the inlet is assigned the Composite Inner Barrel produced by QTA under the applicable STC is structurally warranted against defects in parts, materials, workmanship, and nonconformity with the specifications and drawings approved under the STC for the service life of the aircraft to which that inlet serial number was assigned. This warranty shall remain with the aircraft for any lawful owner of that aircraft serial number.

2.2 That the Acoustic Screen bonded to the inner surface of the Composite Inner Barrel produced by QTA under the applicable STC is warranted against defects in materials, workmanship, and nonconformity with the specifications and drawings approved under the STC for the service life of the aircraft to which that inlet serial number was assigned.

2.3 That the assemble of, and any replacement parts/repairs incorporated in the Upgraded Inlet Cowl are warranted against defects in materials, workmanship and nonconformity with the specifications and drawings approved under the STC and they are warranted for a period of 2 years from the date of delivery of the modified inlet to the aircraft serial number to which it is assigned.

The obligations and liabilities of QTA under this warranty:

- (a) Are applicable only if Purchaser notifies QTA of such defect within 30 days of such defect becoming apparent;
- (b) Are applicable only to parts, materials, and workmanship which are demonstrated to the reasonable satisfaction of QTA to be defective;
- (c) Shall be limited either to the replacement or repair of the defective parts or material, as QTA, in the exercise of its reasonable discretion, may elect, and provided such repair complies with Purchaser's FAA approved maintenance criteria.

Section 3: Exclusion. This warranty specifically does not cover any of the component parts from the original Inlet Cowl used in the re assemble of the Upgraded Inlet Cowl, that are not replaced or repaired by QTA.

Section 4: Data Warranty. QTA warrants the accuracy of all data supporting the STC and that all design, developmental, engineering, and certification data, is in compliance with all Requirements of the FAA, necessary in obtaining and maintaining the STC in good standing.

Section 5: Product Liability Insurance. Combined Single Limit (Bodily Injury / Property Damage / Personal Injury / Grounding) USD50,000,000 each occurrence / offence / Grounding and in the annual aggregate in respect of Products Liability.
